

[2021-10-30] The NCBIr grant in cooperation with the Onwelo company

Our team participates in an industry research project funded by NCBIr (The National Centre for Research and Development) - "X-rAI: Przeglądarka diagnostyczna dla radiologii z komputerowym wspomaganie wykorzystującym Sztuczną Inteligencję (Diagnostic viewer for radiology with computer-assistance using Artificial Intelligence)" - POIR.01.01.01-00-1666/20 (PI: Prof. dr hab. inż. Z. Tabor, dr hab. A. Krzyżak, Co-I: dr hab. inż. J. Jaworek-Korjakowska). The aim of the project is to develop a deep learning browser to assist the radiologist in the diagnosis of lung and liver cancer. The project will analyze images from computed tomography and magnetic resonance imaging. New 3D Multi-view CNN architectures will be proposed and tested.
